

Set 1

A TWIST IN THE TALE

BY Christopher Dickason 4A

Once there was a boy called Nemo and he was going to experience the most exiting day of his life. Nemo went to school like every other day but suddenly as soon as he entered the classroom everyone had dissapeared!

Then a spooky goast told him there ^{was} ~~is~~ only one way to get his friends back, (he didnt really care about the teacher) he had to go to ~~a~~ a secret island, the goast told him where to go. Then he met ~~to~~ Thomas Cook and set off. When they got to the island Thomas Cook realized that he first had to get the treasure to get ^{Nemo's} ~~his~~ friends back. So he found the treasure in a pile of leaves. But suddenly the treasure blew up and sank the island and they never herd off Nemo again.

10 Ten years later ^{scientists} ~~they~~ discovered an
under-water-city in exactly the same
place as the island! They saw Nemo, he
had evolved fins, gills and scales, then they
realized that he had a twist in his tail.
